ABOUT US

We are a full managed service IT company based in Dublin & working across Ireland. We specialise in supporting SMB's and helping your business grow and thrive. Let us take care of your IT infrastructure so you can focus on core business. We aim to provide the absolute best service possible.

We pride ourselves on our customer service excellence.

We specialise in providing IT Managed Services, Hardware & Software to business across Ireland.

Managed IT Services :

We deliver comprehensive managed IT support, including full Help Desk operations and proactive system monitoring. Our services enhance productivity, strengthen security, and ensure a stable IT environment tailored to organisational needs.

Hardware Solutions :

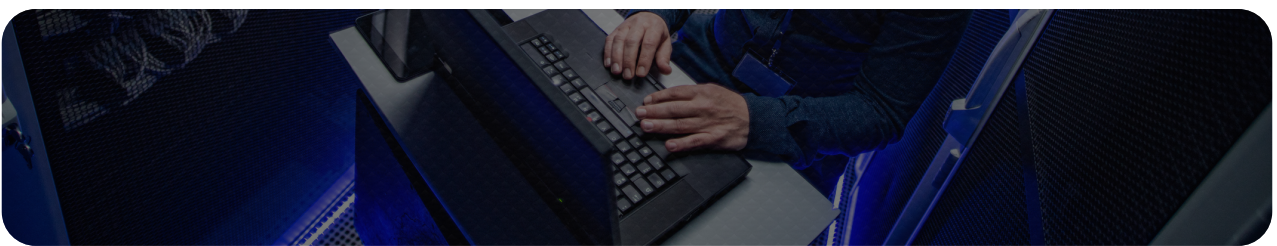

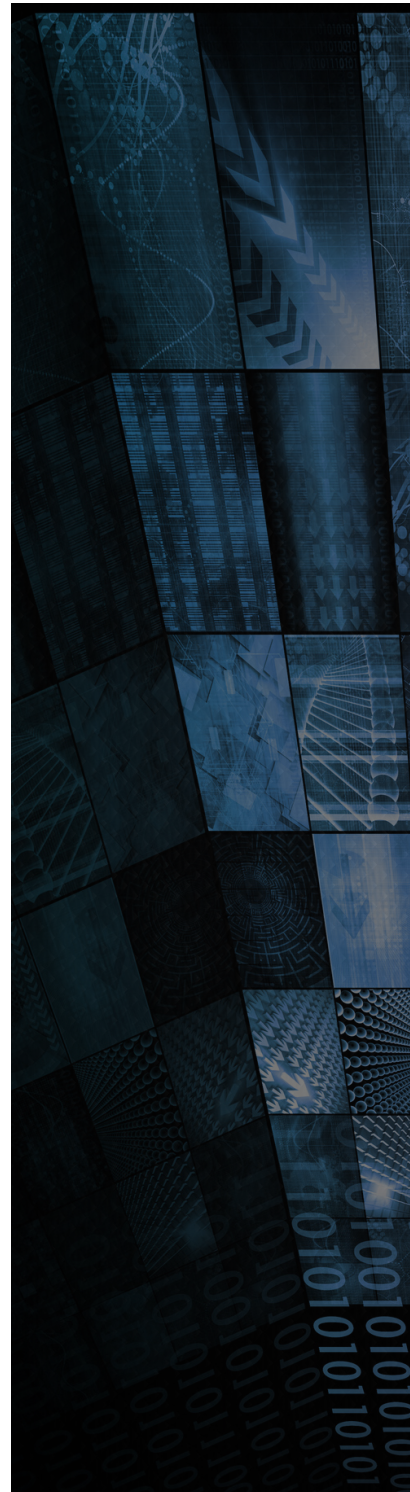

WestTech supplies a complete range of business-grade hardware at competitive prices.

From laptops and desktops to servers and mobile devices, we provide the right equipment to support modern and remote-ready workplaces.

Software Solutions :

Our team implements, manages, and supports software from globally recognised vendors.

We ensure seamless integration, secure configuration, and continuous optimisation aligned with business operations.

IT Office Fitouts :

We provide end-to-end IT fitout services, including network design, data cabling, telecom systems, electrical services, AV equipment and CCTV installation.

Our experienced team delivers infrastructure built for reliability, performance and future expansion.

Technical Support :

WestTech offers reliable, cost-effective technical support on monthly or ad-hoc plans.

We work with organisations of all sizes, delivering responsive assistance across IT, cloud, telecom, and network environments.

Bespoke Consultancy :

Our consultancy services are tailored to unique business requirements.

We design, scope, and deliver strategic IT solutions that support long-term growth, operational efficiency, and technology alignment.

IT Relocations :

We manage complete office IT relocations, including secure transport, installation, and storage. Our high-security warehouse and structured process ensure a smooth, controlled transition for critical technology assets.

Managed Print Solutions :

Through industry-leading partners, we provide scalable managed print and document management solutions.

Our services reduce cost, streamline document workflows, and support compliance.

Telephony & VoIP :

WestTech delivers modern VoIP communication systems that reduce costs and enhance flexibility.

We supply IP phones, SIP solutions, and integrated communication hardware for unified business connectivity.

A person in a suit is seen from the side, interacting with a large digital screen. The screen displays a world map and two circular progress charts. The first chart shows 50% completion, and the second shows 75%. The background is dark with blue and white geometric shapes and lines, suggesting a high-tech or digital environment.

Broadband Services :

We offer secure, scalable broadband solutions backed by nationwide support.

Our IP-based architecture delivers reliability, performance and seamless integration with existing systems.

Digital Signage :

Our digital signage solutions—including displays, kiosks, menu boards, and interactive screens—enable targeted, engaging communication with customers and staff.

AV & Multimedia Systems :

We design and install modern audio-visual and conferencing systems for meeting rooms and collaboration spaces.

Our solutions support clear communication and seamless presentations.

Reception & Check-In Security :

We provide secure visitor and employee check-in systems that support capacity control, compliance, and workplace safety.

EPOS Solutions :

WestTech supplies tills, payment systems, and online ordering tools designed to streamline transactions and enhance customer experience.

Network Supply & Installation :

Our team delivers professional network design and cabling solutions including CAT5e, CAT6 and fibre. We focus on performance, safety, compliance, and future scalability.

Security, Networking & Monitoring :

We deploy cloud-based Remote Monitoring & Management (RMM) systems to monitor, update, and secure endpoints across the organisation.

This ensures reduced downtime and increased operational efficiency.

Secure Endpoint Protection :

Our enterprise-grade endpoint protection defends against malware, ransomware, and emerging threats. Cloud-managed security ensures minimal impact on system performance.

Business Continuity & Backup :

WestTech provides comprehensive backup, disaster recovery, and business continuity solutions.

We protect servers, PCs, files, and SaaS applications—ensuring rapid recovery during disruptions.

CCTV & Access Control :

We install advanced IP and analogue CCTV systems with secure network integration.

Solutions include remote monitoring, access control, video recording, and system upgrades.
